2023 SPRING/SUMMER

# Spring/summer

# TREND

## colours 2023

### TENDER PEACH /

Tender Peach is a shade that brings a real warmth. The pale peach blossoms of fruit trees are the messengers of the awakening nature, this shade carries the notes of constant renewal, lightness and softness. The restrained, pleasantly refreshing shade will give a sense of freshness. You can combine them with warm light and also dark browns and the fresh green and ivory shades.

### SKYLIGHT

The Blue Sky is a pale blue shade inspired by the soft natural light that often shines through the windows. It is both mysterious and soothing, evoking the calm of the endless sky that gives a sense of freshness and lightness. It can also be perfectly paired with shades of greenish trees, pink and peach flowers.

# **SENS BUILDER GEL** **CLEAR, MILKY WHITE,** **COVER NUDE**

**BRANDNEW! SENS BUILDER GEL – CLEAR, COVER NUDE, MILKY WHITE**  
SELF-LEVELING, SMART BUILDER GEL

The SENS by Crystal Nails range of builder gels comes in the brand's trademark gold and black jar, with handy labelling on the top of the jar cap to make it easy to find Clear, Cover nude or Milky white gels in your drawer. Self-leveling, non-burning, builder gel (also) suitable for the file-free technique, beautiful clear (purple shade in the jar) that bends well, cover nude is the perfect natural shade, milky white has just enough of a milky effect and is just white enough to wear as a baby boomer or toe be elegant on its own. You need base gel for the better adhesion: Base Gel, Builder Base Gel, Compact Base&builder gel, Sens Base&Builder Gel, 2 STEP SmartGummy Rubber Base Gel.

Bending time: 10-20 sec (depending on the strength of the lamp). The colored editions (Cover nude and Milky white) can be bended even without base layer.

Curing time: 2-3 min in UV, 1-2 min in LED

# XTREME FUSION ACRYLGEL

## NEW COLORS! XTREME FUSION ACRYLGEL – MILKY SHADES

A new collection of spring-inspired milky shades comes with the unique acrylic gel from the well-known Xtreme Fusion range. A new generation of non-burning, Xtreme dense, perfectly shapeable and easy-to-file AcrylGel builders. When built, it is characterised by the controllability of the gel and the timeless mouldability of the acryl. Once it is cured the gel's fileability and flexibility blend with the strength of the acryl. It can be precisely dispensed without loss of material thanks to its tubular packaging.  
Recommended use: with Xtreme Fusion AcrylGel Thinner.  
Curing time: 4-5 min in UV/LED, 1-2 min in LED.

"When I look at these colours, I think that they could have been teleported here from a Katy Perry video. They're so cheerful and full of life, just as I imagine the spring of 2023 will be, when everyone will be in the mood to go out. The sun's rays are starting to brighten, everyone's spirits are blossoming and we're more energetic. But what can make this already bright time even brighter? If we can see these cheerful colours when we look at our nails."

# NEW! 2 STEP SMARTGUMMY RUBBER BASE GEL COLORS

## NEW! 2 STEP SMARTGUMMY RUBBER BASE GEL "THE RUBBERY COMPACT BASE GEL"

The spring novelties of the popular 2STEP SmartGummy Rubber Base Gel product line include trend colors, elegant nude shades, brighter pinks and pastel colors, so everyone can find a new favorite. Curing time in UV lamp 2-3 minutes, in LED lamp 1-2 minutes.

**Smart:** gets into place by itself, blends into the surface

**Gummy:** because it is flexible, rubbery

**Rubber Base:** you can use it as a base or refill the nails, create a C-curve but do not use it to build an extension on form, use instead the Compact product line or the Elastic Hardener Gel or the Sens base&builder product line for that from our builder gels with brush.

New! RT04  
Hydrangea

#### CN advice:

If the material settles or separates while long-standing, due to its density do not shake it, just stir it in the bottle with a wooden stick.

#### CN advice:

You can enhance its shine by using a top gel. It can be used on any base, but on gel polish only if the applied base gel is suitable for the strengthening technique.

# NOVELTIES

## BRANDNEW! OMBRE SPRAY

A unique solution, yet easy to use! The Ombre Spray is a powder-like substance that must be applied with a blowing motion into the surface of the non-cured Base Gel from the side of the free edge. It can be used to create a beautiful ombre gradient. How? If you prepare nails with a gel polish technique strengthened with a C-curve, apply a thin clear layer of Compact Base Gel, Sens Base Gel, or even 2 STEP SmartGummy Rubber Base on the second layer which is cured but not cleansed. Then just blow on it from the bottle. Use in several layers for more intense color depth. Available in 5 shades!

Ombre Spray is sold in a special patented bottle, the 14 ml bottle contains 5 g of material to achieve a nice spreading.

## 2023 SPRING - SUMMER NOVELTIES

### NEW! NAIL STICKERS

The spring is also noticeable in the season's sticker designs. The motifs include colorful flowers and leaves. With patterns of different shapes and colors, you can easily decorate your spring nails and create a real jungle even on shorter nails. We also brought something for the lovers of typography and for those who prefer a simpler, clean marble effect. In 4 types of patterns: spring flowers, bright blooms, wild vegetation, and golden spots.

### BRANDNEW! PROOF BRUSHSET

Be the most professional with the 5-piece brush set with which you can easily create the most durable, strengthened gel polishes for your guests. The sizes of the brushes are the same, and their heads are flat and straight, so they are easy to hold. Their specialty is that these brushes were developed for bottle packaging products. It is available in two types of packaging, so you can use it for any product size without problems.

How to change the brush: pull out the brush from the cap with a sudden, decisive movement, put it aside, place the new brush selected from the set in the bottle, then put on the cap as you usually close the bottle. This way the cap already "holds" the brush and you can use it, just open the bottle!

By keeping the edges of the brushes at the right angle, you can skip using thin brushes (e.g. brush 0) close to the skin.

# PROFESSIONAL ARTICLE

# 5TH GENERATION

# OF GEL POLISHING!

INTRODUCING THE 2 STEP SMARTGUMMY RUBBER BASE

*2 STEP SmartGummy Rubber Base is a revolutionary innovation on the market. Think of it like smartphones. The first generation mobile phones were too big and you could only make calls on them, in the next generation even the snake ran on them, then you could take pictures and then the Internet appeared on them. Phones have become smarter and smarter and today you can practically change the*

**#1**

***The first generation of gel polishes appeared 12 years ago.***

To get to the 2 STEP SmartGummy Rubber Base level it has gone through a lot of changes. The materials have evolved along with the needs. In the beginning, the gel polishes were really "just" permanent polishes, they were great for 2 weeks and dried quickly. It needed a base, two layers of color and a top. Although these materials were top category products at the time, compared to today's materials, they seem difficult to handle now.

### ***The second generation has already developed in two directions.***

The traditional 3 step gel polishes have a base gel that ensures the stronger adhesion and highly pigmented colors. In addition to this, the one step category also appears, which already foresees the future of today's materials. The One Step gel polishes promise (still only) a durable nail polish in just one step. This material already has a good adhesion and cures completely dry and shiny, using just one material. In this generation we can only talk about good adhesion, if the guest wanted stronger nails, we had to cover the nails with gel or acrylic material. This is where the strengthened gel polish technique entered to people's minds. (Unfortunately, it still means the same to many nail artists, even though if you think about it logically, it's not gel polishing, but artificial nails, on which a gel polish color is applied.)

# #2

## PROFESSIONAL ARTICLE / SPRING - SUMMER 2023

5TH GENERATION OF GEL POLISHING! INTRODUCING THE 2 STEP SMARTGUMMY RUBBER BASE

***On the next step, the colors became much more pigmented and creamier in texture, the LED also appeared, but the most noticeable change was in the base gels.***

They became denser and suitable for preparing a stronger base, they lasted even 3-4 weeks, but we are still only in the beginning of our way. We have not created the strengthening gel polish that we call Modern gel polish...yet.

**#3**

**#4**

### ***This came with the 4th generation***

The base gels have developed: extreme adhesion, easy-to-use materials, many types of natural, cover, milky and pastel shades, with which you can achieve gel polish nails that really last up to 4-5 weeks if you work with strengthening and c-curve technique. With these materials, it is even possible to extend the nails by using a nail form. However, we are still talking about 3 Step materials and we are currently at the top of this category. It is hard to imagine how it could be better, but there is always someone in the background who dreams big and thinks further...

## **We arrived to the fifth generation, that is the 2 Step SmartGummy Rubber Base!**

This material combines all the good features of top quality 3 Step materials!

2step!... What does it mean? You need two materials to get the final result, a SmartGummy Rubber Base and a top gel.

Extremely good adhesion and perfect consistency, it literally fits in place and holds the desired curve. It is available in many beautiful colors, so it is really quick to work with. The colored 2 STEP SmartGummy Rubber Base has a strong adhesion, so I don't use clear material for base, but if it seems safer for you while removing the nails, you can apply a clear base layer. By using a kind of color material to shape the whole nail, you can achieve the best result that you can't get with any other material.

With traditional gel polish technique without c-curve, you can get an elastic layer that fills the nail's surface. Thanks to its extreme flexibility, it can be used on all nail types. The best choice to strengthen easily and brittle nails.

But one thing is very important! Because of its extreme flexibility it is not suitable for building extensions on a nail form! Use any of our top quality 3 Step Builder&Base gels or builder gels, Correction Gel. When the extended base cured, you can use the 2 STEP SmartGummy Rubber Base.

Written by Mónica Majnik

*Currently there are two trends in the world... from one side the long design nails and from the other side the salon nails made with colored bases like 2 STEP SmartGummy Rubber Base. Pick up the rhythm and step to the next level!*

# #5

Color of  
the Year 2023  
**VIVA MAGENTA**

**PANTONE**

# THE TREND COLOR OF 2023 IS VIVA MAGENTA

The color of the year 2023, Viva Magenta appears in two of our most popular color material groups - Royal Gel and 3 Step Crystalac, so you can choose from a jar or a bottle with brush packaging to work with the coolest color of the year. This color gives us a new way to express ourselves, our strength and our emotions. A vivid color with power, optimism and joy. This is a boundless shade that fits for everyone. The Viva Magenta color is referred as a hybrid color by the Pantone Institute. It is on the boundary between warm and cold shades.

Grey, nude and pastel blue shades perfectly complement each other with Viva Magenta. A must-have pairing for the trendiest people this year!

For a wilder or a "Colorblock" style, you can combine it with vivid pink and other pink shades!
