2021 Autumn-Winter

2021 Autumn-Winter TREND CO

OLIVE BRANCH

**THE BEAUTY OF THE MANY DIFFERENT SHADES OF THE OLIVE BRANCH IS IN THE DEPTH
AND ENIGMA OF THE COLOR.**

You can find the sensational mixture of gray and green among the autumn trend colors as a 3S159 Olive Branch, and the 3S160 Khaki is evergreen in the world of nails. The 1S109 Olive Branch is a very natural and serene shade which brings a very classy looks to anyone who wears it. The S011 Brown has a deep saturation but yet it has the fine softness of a chocolate mousse.

base gel & apron

NEW! SENS BASE GEL

DEVELOPED FOR NAIL STRENGTHENING TECHNIQUE BASE GEL ("LIQUID BUILDER GEL") IS NOW IN 10 ML VERSION!

Base and strengthening gel with extra strong cohesion. This bigger version of the product is perfect for everyday salon work because easier to work with the bigger jar: easier to gain the material from it, the surface can be made faster and the chance for creating bubbles in the nail is less last but not least it could last longer. We have 2 new colors in the Sens Base Gel product line: the shades of Cover Pink and Cover Peach. The Cover Pink is a natural pink-ish shade, the Cover Peach is a peach-y nude shade. Both of them have excellent coverage and the cohesion is the same as the Clear. It could be especially charming for french, babyboomer nails, base for any nail art or by itself.

This is the strongest known Base Gel on the market right now, specially developed for strengthening technique. Due to its special component, it is unique among base gels. It has tiny little artificial silk strands in it, making the product thicker and more flexible. Beyond that; this new technique can help with the preparation of the surface and C-curve, due to its consistency, it will not flow over the lateral nail fold or near the cuticle. It can also help with the cohesion too speeding up the process. The product contains vitamin 'E' and calcium. The order of base gels by cohesion: Sens Base Gel, Compact base Gels, Builder Base Gel, Universal Base Gel, (Easy Off Hardener Gel). This product will not get hot during the curing, remains flexible and it will not break.

Cure time: 1-2 min (LED), 2-3 min (UV)

New! S012

SENS FLASH '3G POLISH'

CREATE SENSATIONAL NAILS WITH THE CHOCOLATE AND COBALT SENS FLASH '3G POLISHES'!

3G Polish with light reflective sparkles, which will be shine bright as a diamond if the sun hits the surface of it. In "normal" circumstances is "just" a very vivid color gel polish but don't judge a book by its cover: if the light hits that from the side or from the back it will be as sparkly as in the sun. Using matte top gel it will be a marble effect on the nail.

Cure time: 1-2 min (LED), 2-3 (UV).

Nails®* 

Brand new! Elastic Hardener Gel

CLEAR, FLEXIBLE, SOAK-OFF NAIL STRENGTHENING "LIQUID BUILDER GEL" WHICH CAN CREATE A STRONG AND LOG LASTING LAYER TO THE NATURAL NAILS.

This is ideal for everyday salon work, for creating c-curve, filling, correcting. It can be used for making S, M size nails (using forms) considering the thickness of the material. Unfortunately during the building process, it can barely pinching. Under another builder gel, it can be used as strong base gel. For strengthening the nail, the color can be applied on it without any filing, so the time of the fillings could be less than ever. It can be used for pedicure as well.

Cure time: 1-2 min (LED), 2-3 min (UV)

BRAND NEW!

Aquarell Paletta

12 pcs – Essential

Create unique designs with the new generation of Aquarell Palette! This version of the product is easier to handle and work with. You can find 12 magical, vivid colors. They're not fading, you can create transitions and wiped decorations with it.

This art paint is water based, which means it dries on air, you don't have to cure it. Important: always work with this on an extra smooth matte surface (Cool Top Gel Universal 20-30 sec cure time, and matte it with fine buffer)! After you're done, cover it with Cool Top Gel Universal. Use a brush with natural hair, i.g. Aquatic I. and Aquatic II.

New!

Aquatic I. and Aquatic II. brush

Especially developed for aquarell painting, both of them has natural hair. The Aquatic I. is for bigger patterns, the Aquatic II. is for smaller designs.

New! Stickers

Bigger than the usual, we have sheets of 12*7,5 cm. The stickers are extra thin and they're have fall-winter designs: Indian Summer, Fancy Leaves, Autumn Foliage, Vivid Field.

New!

NEW! Love Decoration glitters

Our brand new decorations are mix of the popular colors fall-winter in a nice and elegant black jar. Create a beautiful decorations on your customers' nail with these magnificent thin heart shaped glitters, which can turn every manicure exciting. We have 2pieces in this season: Sweetheart and Storm.

CN advise: apply these glitters as a build-in decorations, us them with the new Elastic Hardener Gel.

This nail was made with the 35149 Candy Rose, the new 35157 Pale rosette 3 Step CrystalLacs, the new Love Decoration glitters Sweetheart by Kovács Nikolett

LIMITED! Cuticle Oil 4 ml Candy Floss / Raspberry

We have 2 new limited scent in our Cuticle Oil product line: charm your customers with the irresistible scent of cotton candy and raspberry.

New! K-Color brush

The perfect brush for colorful decorations with soft and synthetic hair, similar to the Gelly Brush. Especially developed for applying color gels and creating color transitions. The flat base of the brush will bring more stability to the hair of the brush. Due to the thinness of it, the usage and the work is so much easier with it. The cat-tongue like edge will guarantee the effortless painting near the cuticle.

Base Gel Guide

How to navigate in the world of base gels?

The nail industry has been turned upside down since the last few years and anyone who has been in this business long enough, knows what we're talking about. Many, many years ago everyone was wearing builder materials on their nails, because that was the only solution for creating long lasting nails. The semi-permanent gel materials (gel polishes) appeared approximately 10 years ago and it was a huge breakthrough, it brought many possibilities with it. But in the first few years they didn't last long, despite the fact the people loved it! The real improvement was when the first stronger base gels/strengthening gels came out. Due to the built-in brushes, the work became so much easier and faster, they lasted longer and not to mention the more natural looks as a result. Now, we have 3 different kind of product line what we can choose from: the Compact Base Gel family, the Sens Base Gels and the newest Elasty Hardener Gel. Let's see the main differences between them, how you can use them and what you can use them for?

The most favorite materials for many nail tech, the Compact Base Gel Clear has many possibilities as the name would tell us. We can use it for foundation for almost every product type except the acrylic: we can use for classic gel polish technique, for gel sculpting or filling, for acrylgel, for reverse tip technique (in this case, the base layer is crucial). Furthermore it can be used for modern gel polish technique, for strengthening the natural nail. This base material is available in 6 different color shade so we can create more and more effect with their help.

There are 2 shade of base gels with full coverage: the Cover Pink and the Cover Rose. The Cover Pink is the perfect choice for creating a foundation for french nails, the white free edge will make a beautiful contrast with it and the result is what we're all dreaming about. We recommend you to use the Flexi French Gel for creating the free edge because of the flexibility, the consistency and the amazing color of it of course. The Cover Rose a bit lighter color, and it is very similar to the popular 3S42 3 Step Crystalac, which is a perfect pinkish nude color. Using this product could shorter the time of working, because it can replace using color in case if your customer is late. Both of these cover shades is a good foundation to any decoration, painting, also it can be used by itself!

But beware! The more pigmented base gels has less cohesion so recommended to use a clear base gel underneath it, also because if the next time your customer wants another color, it can protect the natural nail during the filing.

The Translucent Nude, the Milky White and the Milky Rose are transparent, "semi-coverage" shades. We can create a beautiful babyboomer and the most natural like nude nail with the first one; the others can be the perfect choice for the beloved latte nails. We can design very creative effects if we mix these products with Glam Glitters or Crystal Flake.

Sometimes, we can find the Compact Base Gel Clear a bit less thicker what we can work with comfortably (in the heat of the summer, for example). In this time we can use the Compact Base Gel Plus, which is equal to the normal Compact Base Gel Clear, the only difference is the Plus version's consistency is more thicker which can prevent the material from flowing around in the hot days of summer. Both of them are "semi-thick" material, they both assure the fast working rhythm.

How to navigate in the world of base gels?

The newest member of the super base gels is the Elasty Hardener Gel which is a nail strengthener, a base gel and a builder gel all at once.

We can use it as a super strong base gel underneath the gel polishes, builder gels and acrylics. Due to the strength of this product we can also use it for strengthening the natural nail: the natural nail can grow long because this gel can protect it from breaking.

Also, we can build a shorter (S, M) artificial nail with it too, using forms or tips. In case of forms it can be pinched a little bit as well (but not too much). The consistency of this material is medium, but during the everyday salon work is the most optimal kind, because we can work with it faster. This product is self-leveling so when we're working with it, the surface will be smooth. And because of that, during the process of strengthening, the color could be applied to it without any filing meanwhile. In case of building, the filing is only necessary for creating the final shape of the nail. The nails built with this product are strong, flexible and they'll have a natural look as well.

But this gel isn't huge help for us in case of the technical matters, but also with the decorations too! Nailfetti, Glam Glitters, Sugar Powders, or any other Glitters: due to the self-leveling attribute, this can be the perfect match for these non-flexible decorator products. You can use it for ChroMirror Powders, aquarell paints, water based stickers as well: on the top of the powder and underneath the top gel. Also: for rhinestones, for mini beads, for Glam Selection too. There is no work phase when we can't use this material.

We can increase the power of the Compact Base Gels and the Elasty Hardener Gel if we apply a bit of this powder right before curing the base layer. After that, we can apply the second layer, the strengthening layer. If you want to make a nail correction without using form, just mix it up with the gel and you can correct the missing place with layers.

If you're craving something really special, choose one of the Sens Base Gel family. These products are universal: base gel, strengthening gel, builder gel all at once! But the 2 most important advantages of these are the consistency of it for once: this is a bit more thick than the others; and secondly, it contains mini silk strands in it. This development not just give it a real strength, but it makes your work even more easier! You can feel the difference when you pull up the brush from the jar: it has the flexibility as no other product has. The self leveling attribute just jumped through some level up. You barely touch it and it has already shaped itself as it should be. It will not flow to the lateral nail folds, nor the cuticle. Those who love the modern gel polish technique, it will be their favorite product! This could be the solution for any lifting problem too. You don't have to reach out for building gels in case of filling longer nails, due to the silk strands in it. We have 3 colors now: Clear, Cover Pink and the Cover Peach. The Cover Pink is a pinkish nude shade, whilst the Cover Peach a bit more peachy, warmer shade. The interesting thing about these products is despite of their pigment in them, it doesn't require the clear base layer as the others. We can create an amazing babyboomer and french nails with the nude colors. The specialty of the Cover Pink is it contains micro glitters, which can increase the dazzling effect of it.

The uniqueness of the Sens Base Gels is the silk strands in it, but it has a downside too: the surface of the shiny decorations will show every single little detail of the base gel and it will be not so smooth as we would like it to be. In these cases, use some of the materials we have without the silk strands.

Whichever Base Gel you will choose, your customers will love it for sure!

This season has brought us very exciting new preparations and must-have nail art products. We made a little list for you about the most popular products of the year and you can combine them with the novelties of the fall.

1

SENS '3G POLISH'

This season has brought us very exciting new preparations and must-have nail art products. We made a little list for you about the most popular products of the year and you can combine them with the novelties of the fall.

2

NOVA CRYSTALS

Colorful, self-sticking glass rhinestones, for nail art creations. You can find 100 pcs in an elegant black jar. We recommend to use Gem Glue Gel (1-2 min for LED, 2-3 min for UV) for fixing the stone. We have 17 different shade of Nova Crystals.

3

Xtreme Superior Builder Gel – Natural Pink

New Generations of builder gels, which can be used for filing free technique perfectly. The Natural Pink has nice coverage and it will be the fine match for lighter skins in the cold months. The color shade is very similar to the color of the natural nail bed, so when the nail is growing, the difference won't be so "loud".

4

ChroMirror Pigment Powders

The most popular pigment powders now available in finer grains, so we can create more spectacular effects with them. We have 4 new shade: Fine Aurora, Aurora Aqua, Aurora Sun, Ultraholo.
