2024 SPRING / SUMMER

2024 SPRING - SUMMER TREND COLORS

Pastel Lilac

Pastel purple is a pleasant and soothing shade, while still having a refined elegance. This color evokes the magical time of spring and flowers, when the nature is renewed and blossoms. The pastel purple almost brings the soft spring breezes and the rays of sunlight with happiness into the everyday. Pastel purple works very well with other colors, so it can even be combined with other pastel shades, but also with green, blue and peach colors. Immerse yourself in the soft and romantic world of purple!

Brilliant White

The white color is the eternal classic, which never goes out of fashion, fits any style and carries a feeling of timelessness. This color is not just a shade, its beauty lies in the details. The elegance behind its simplicity definitely deserves attention, but if you pair it with other shades, you get something very special! Brilliant white can be combined with almost any color, making it extremely versatile. It works well with pastel shades, bright colors, but also with earth tones, thereby giving you the opportunity to create a unique style.

NEW TOOL!

SENS PRECISION CUTICLE SCISSORS

Our "Precision" scissors, created with the greatest attention to detail, enable more precise cutting than ever before. Thanks to its design and the edges ending in a sharp point, even the smallest pieces of skin can be safely removed with it. Made of high-quality Japanese stainless steel, hand-sharpened, guaranteeing long service life and even cutting. The ergonomic, oval handle design provides comfort and easy control for fine cutting movements.

The correct procedure for disinfecting metal tools:

- Clean the metal tool from organic contamination (dust, pieces of leather, etc.). Cleaning can be done manually under warm water using a nail brush or with Crystal Nails XtremePRO Ultrasonic cleaning machine.
- Wipe it dry.
- Spray the tool with a disinfectant. The disinfectant should apply to all used surfaces of the metal tool. Wait 1-1.5 minutes, this is the time required for the disinfectant to take effect, but always read the instructions of the disinfectant before use.
- Thoroughly rinse the disinfectant off the metal tool with water.
- Wipe the tool dry and then put it in its storage place.

Never allow the disinfectant or water to dry on the tool, as this may damage its quality.

NEW TOOL!

The new SENS chrome powders give the nails a special effect. These powders have a very intense shine that can be used to achieve a unique and fashionable look. The combination of blue and yellow shades creates an exciting contrast, whether for special occasions or for everyday use. Barbi Újvári, SENS by Crystal Nails ambassador

NEW SHADES

XTREME FUSION

ACRYLGEL

The Natural White shade makes its debut among the new shades of the Xtreme Fusion product line. With this new shade you can create natural-looking Babyboomer nails quick and easy. Applied to a full nail surface, you can achieve a restrained, elegant milky effect (milky white style). The Glitter Silver with its white, silver and holo glitters perfectly enhances nude sets and it is also perfect for glitter ombre transitions. The Shimmer Rose shade gives the look of the bestseller 3S51, while the Lavender is a gorgeous pastel purple that can be used to create an unusual, cooler Babyboomer set.

**If you have a strong LED lamp, the material may temporarily change to a warmer white shade during the curing time, but after complete polymerization (about 15-30 minutes) it will regain its original color.*

CN Tipp:

for even faster salon work, use our reverse tips, not only for building, but also for filling! Non-burning, Xtremely dense, perfectly shapeable and easy-to-file acrylgel. It is characterised by the controllability of the gels and the timeless mouldability of the acrylics. Once it is cured the gel's fileability and flexibility blend with the strength of the acrylics. It can be precisely dispensed without loss of material thanks to its tubular packaging.

NEW SHADES

3 STEP CRYSTALAC SPRING-SUMMER TRENDCOLORS

Everyone can find a shade that suits their style among the colors of the new 3 STEP CrystaLac collection: say goodbye to winter with the 3S209, the blue shade of the spring 3S210, the blooming shade of 3S211 and the summer calling 3S212. These new colors are all forerunners of the adventures of the year ahead.

The trend color of the year 2024 – Peach Fuzz is a velvety peach shade that suggests balance and harmony, also combines freshness and calmness with its softness. We tuned this versatile shade for the spring and summer season, so the color of the year arrives in spring with a neon-pastel effect that radiates cheerfulness, optimism, and positivity, suitable for all skin types.

Curing time in UV 2-3 minutes, in LED 1-2 minutes.

3 STEP CRYSTALAC SPRING-SUMMER TRENDCOLORS - PEARLY COLLECTION

The 3 STEP CrystaLac Pearly collection has arrived. With these shades you can easily create a rose pattern with just one decorating needle. In the spirit of "all old fashions are coming back", our new pearlescent gel polishes offer a sophisticated look when applied on a full surface. They are also good for decorations, since they provide an exciting and elegant style. A „must have“ for brides!

Apply the pearly 3 STEP and before curing use the button part of the decorating needle to create the desired pattern with small circular movements on the surface of the material, then cure it. Your spectacular but very simple decoration is ready.

Curing time in UV 2-3 minutes, in LED 1-2 minutes.

Pearls have always represented elegance, so this collection is the perfect choice for those who like an elegant look. In the spring, these cheerful colors are almost basics in the salon, and to spice it up, you don't need anything more than a clean brush, a few circular movements and you're done with a really trendy decoration.

NEW SHADES

2 STEP SMARTGUMMY RUBBER

BASE GEL "THE RUBBERY COMPACT BASE GEL"

New, innovative Base Gel, characterized by extremely easy spreadability, high flexibility and strong adhesion. The creation of a smooth surface is easy to create, because this material is easily smoothed out and all of the unevenness quickly disappears from the surface. It holds the C-curve well, meanwhile it does not flow easily in the nail fold, that provides a great help for those who originally like to work with medium soft materials. It provides also a fast work flow with only a few corrective movements necessary. Its flexibility makes this material stand out among all Base Gels, making it extremely resistant, it adapts to all kinds of movements of the natural nail, so it stands the possible mechanical influences better than its counterparts. It is at the top of the Base Gels' adhesion order. After curing, the surface stays sticky. Use the Cool Top Gel as a top gel.

Our 2 STEP SmartGummy Rubber Bases have been an unbroken success since their release, and the spring season's colors perfectly harmonize with the spring mood. Charlock is a truly special Pantone shade that will shine this season for sure. Lovers of ecru shades will not be disappointed either, because a gorgeous soft spring Milky Ecru shade is coming. For lovers of peach shades, the Desert Flower is the perfect choice, which harmonizes with the color of the year.

Curing time in UV 2-3 minutes, in LED 1-2 minutes.

SMART: it crawls into its place automatically, then slips into the surface

GUMMY: because it's flexible, rubbery

BASE&BUILDER: you can use it as a base or refill your nails and also you can create the C-curve but do not build a long nail on form with this product. Use the Compact product line, the Elastic Hardener Gel or the SENS base&builder range for that.

Remember:

The SmartGummy Rubber Bases are recommended for fingertip-length, mini-length nails. You can replace the base gel + 2 layers of color technique to speed up your salon work.

I just call this fantastic four of Macaron madness! My mouth is watering as I look at them. There is no better choice for evoking the spring mood than them. Just imagine yourself on top of the Eiffel Tower biting into a light dessert that has the same color as your nails. I think this is why they say that life is not a cake, but sometimes we can get a slice of it.

NEW MATERIALS: HEMA FREE PRODUCTS

FREE OF HEMA AND DI-HEMA INGREDIENTS

HEMA FREE 3 STEP CRYSTALAC

Creamy, well-covering, long-lasting HEMA FREE 3 Step CrystaLacs in the most popular colors. The CrystaLac material offers the durability of color gels with the ease of nail polishing. It spreads softly. It cures sticky, so it has to be covered/cleansed.

A product free of HEMA and di-HEMA components provides a solution for guests with allergies on these ingredients! Curing: 2-3 minutes in UV lamp, 1-2 minutes in LED.

4ml

NEW MATERIAL

Read page 24 for more informations about the HEMA free productline.

HEMA FREE ACID FREE PRIMER

Acid-free primer without HEMA ingredients

Store at room temperature for a day to prevent the brush from breaking! Details in the product description.

A completely acid-free, adhesion-promoting liquid that does not dry completely, leaving a sticky layer. Therefore, it must be applied thinly, because this sticky part will act as a double-sided adhesive between the nail plate and the material that is placed on it. If you apply more of the acid-free primer, this sticky part will be a little thicker, so the material on it will not stick to the nail plate, and separation may occur. The excess from the brush should be removed on the neck of the bottle or using a dry paper towel, so that we can avoid applying too much product on the nail.

IMPORTANT: Primers can freeze in the bottle in the cold. This does not affect the quality of the material after melting, but be sure to wait for it to melt and regain its liquid consistency before opening, otherwise the brush will break!

Acid-free Primer is a material more sensitive to heat and light, it may turn yellow from filtered sunlight or UV light. The discoloration of the material does not affect the other physical properties and use of the product.

13ml

NEW MATERIAL

Spring shades

The nail set was made with the new HEMA Free Base&Builder Gel, the new HEMA FREE 3 STEP CrystaLac HF3S05, HF3S06 and HF3S08 shades (By Roxána Sárközy - Eigner)

A product free of HEMA and di-HEMA components provides a solution for guests with allergies on these ingredients!

HEMA FREE BASE&BUILDER GEL

Base&Builder Gel free of HEMA ingredients

It can be used as a strengthening base gel. A self-leveling gel with which you can create a C-curve. It can be used as a base for all types of materials, it has strong adhesion.

It is flexible, but cures hard, spreads well, but holds its own on the surface of the nail. An S-sized nail can be made with it. Clear, soluble. Curing time in UV 2-3 minutes, in LED 1-2 minutes.

8ml

Clear

HEMA FREE TOP GEL

HEMA-free, non-cleansing top gel with a brilliant, long-lasting shine. Clear, soluble. It does not contain the optical color enhancer that makes the nail "glow" blue under UV light, so it does not change the colors.

Curing time in UV 2-3 minutes, in LED 1-2 minutes.

NEW SHADES LONGLASTING NAIL POLISHES (FRENCH)

The French manicure is the embodiment of timeless elegance and refined beauty. An eternal classic that conquers the world with its simplicity and style. The FRENCH selection, consisting of four colors, offers a perfect choice for creating a French base with its soft, slightly translucent, natural shades. You can complete the look by applying the french free edge, for which we recommend our ARTLAC-WATERBASED - 1 product, but the shades can also be used alone to create a beautiful manicure. Whether it's an everyday look or a special occasion, a french manicure is always the perfect choice.

10ml

NEW SHADES GEL EFFECT NAIL POLISHES (NUDE)

The nude shades radiate elegance and are perfect for every style and occasion. The nude color is like natural beauty in a small package - restrained, yet eye-catching. Thanks to the high-quality formula of the Gel Effect product line, anyone can easily create a salon-like manicure from the comfort of their own home, and the Nude collection suits all skin tones and preferences.

4ml

HEMA FREE PRODUCT LINE

A PRODUCT LINE FREE OF HEMA AND DI-HEMA TRIMETHYLHEXYL DICARBAMATE COMPONENTS THAT PROVIDES A SOLUTION FOR GUESTS WITH ALLERGIES ON THESE INGREDIENTS! *

HEMA AND DI-HEMA TRIMETHYLHEXYL DICARBAMATE (FURTHER USED AS DI-HEMA IN THE TEXT) SUBSTANCES ARE ACRYLATES FREQUENTLY USED IN THE NAIL INDUSTRY, WHICH CURE UNDER THE INFLUENCE OF LIGHT, I.E. IT POLYMERIZES AND UPON CURING CREATES A GIANT POLYMER MOLECULE. THESE INGREDIENTS CAN BE FOUND IN GELLACS, GELS AND ACRYLGELS.

The mentioned components help the internal structures of the artificial nail material to be permanently bonded to each other and contributes to the durability, strength and wearability of the nail. It is resistant to physical influences and tolerates temperature fluctuations well. This process may be familiar to you from your studies, right?

However, HEMA and DI-HEMA can cause an allergic reaction in those who are sensitive to it, which can appear on the skin of the hand in the form of redness, itching, lack of epithelium or blisters. In such cases, the material containing the mentioned components must be removed immediately and completely.

With long development work, Crystal Nails has created a product line free of HEMA and DI-HEMA, which can result a problem-free wearing of artificial nails for users who are proven allergic to these ingredients. Before long-term use, it is recommended to test it for the first time on a single nail of a completely material-free hand. The durability of these materials are the same as previous materials containing HEMA and DI-HEMA.

For continuous work, it is recommended for all guests allergic to HEMA and DI-HEMA to use the HEMA FREE Acid Free Primer, and after the HEMA-free builder and base gel, the color and Top gel of the same product line. It is also a proven method for guests with sensitive skin to have their own files wrapped in an envelope, and to clean the drill bits from previous acrylate material residues in an ultrasonic cleaner.

The popularity of HEMA-free materials is growing and its expansion is already pointing to the future, healthy beauty and calmness of the skin of the hands are the number one expectations of all beauty needs. Crystal Nails' HEMA FREE material line meets this requirement.

** If the guest does not show sensitivity to other components of the material. We recommend checking this fact with a dermatologist before!*

Playful patterns

The nail set was made with Hema Free Base&Builder Gel, Hema Free 3 STEP CrystalLac HF3S04 and HF3S08, decorated with Platinum Foil Gold, Art Gel Pro White and Confetti Top Gel Matte Black. (By Roxána Sárközy-Eigner)

NEW! NAIL STICKERS

Say hello to spring with our wide range of nail sticker collection! This season contains 2 self-adhesive (CN-08, CN-09) and 2 water-based sticker sheets (sunset leaves, pastel field), which capture the essence of spring with nice flower patterns and motifs that harmonize with the season. Our high-quality stickers are durable and easy to apply, and they are guaranteed to match the trend colors of the season!

1. Water decal - sunset leaves
2. Water decal 3D - pastel field
3. Nail sticker 3D CN-09
4. Nail sticker CN-08

NEW! XTREME PRO JOKER DRILL BIT

Large size carbide drill bit, which is perfect for removing large amounts of material. Due to its narrowed shape, the primary function of this bit is to shape the underside of the nail. Hard-to-reach areas can be reached easily, safely and precisely with it. Suitable for gel, acrylic, acrylgel techniques. For right- and left-handed!
